

SEA SHEPHERD OCEAN AWARENESS CHALLENGE

Stuck at home with not much to do?

How about helping Sea Shepherd to spread the message of how important the oceans are?

There are three ways you can help:

- ❖ Build a sculpture from recycled materials. Make an ocean animal or something to represent the impact plastic has on the oceans.

You probably won't want to go this big, but take a look at this whale made completely from plastics.

Get imaginative and create your own trash monster from the deep!

- ❖ Create an educational poster about ocean issues that helps people to understand the impact. It could be about marine debris and the impact of plastic pollution on marine animals.

Explain what people should or shouldn't be doing to help.

Alternatively you could talk about the impacts of overfishing on the oceans, or climate change. You choose the topic you feel passionate about, but remember to include a message for people to take action on!

- ❖ Make a video to share with family and friends about ocean conservation. It could be about plastic pollution, it could be about ghost nets, overfishing the oceans, why we should protect sharks.

Your video should explain the issue, why it is important to you and what you would like them to do to help.

Once you have created your project share a photo or video with us. We will then pick the best ones to share on our social media pages.

Upload your photos/videos via our online form: bit.ly/ssukcomp
