

We all know that plastic pollution is littering our coastline, beaches and seas... but what hazards do you have lurking around your home? Use this scavenger hunt to identify any potential risks and dispose of them responsibly!

Good luck Ocean Warriors!

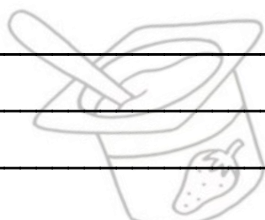

Name:

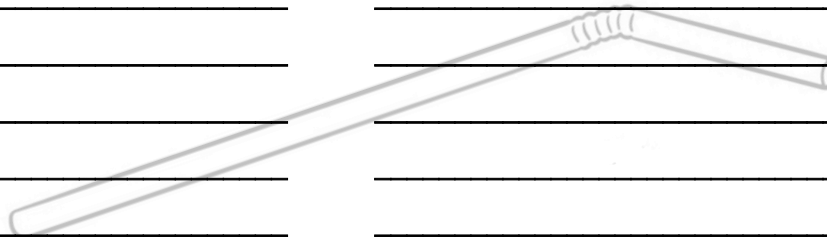

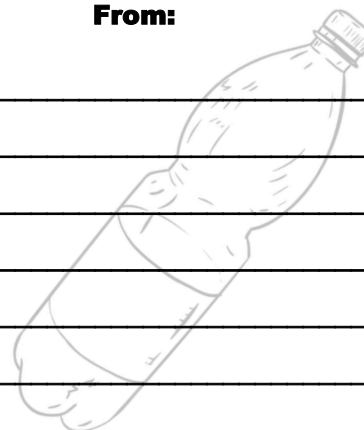

Age:

From:

How many did you find?

Write your number below to total everything up:

By ensuring that your rubbish ends up in the correct rubbish bag, you are doing our oceans and beaches a favor! Be sure to start cutting down on more disposable plastic (this is called single use plastic, like water bottles or crisps wrappers).

Plastics like these can have a devastating impact on sea creatures from the tiniest sea horse to the largest whale!

Be an Ocean Warrior and spread the word! We need to keep our oceans clean!
